Photos

1. To add photos on particular pages, you

should be on the **Edit menu.**

2. Upload photos.

There are many paths on how to add photos.

Option 1:

Inside the submenu of Photos

click on the button  and it will open a window to upload photos from your hard drive.

Option 2:

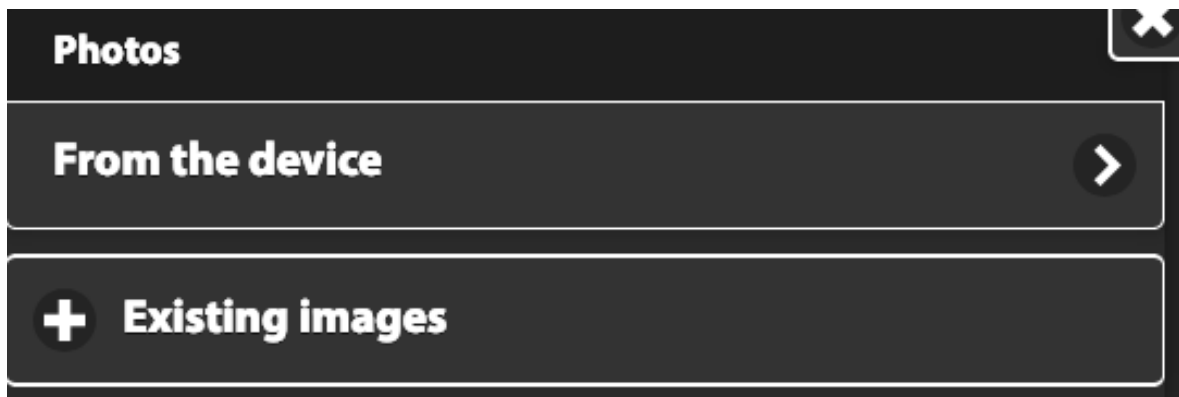

On the **layout** of the particular page where it is possible to add a photo  you click on the

Option 3:

On the **layout** of the particular page where it

is possible to add a photo  you click on  and an option to add photos from the device you are working on appears

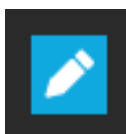

3. Photo library.

You can see the photos you have uploaded by opening the **submenu of Photos**

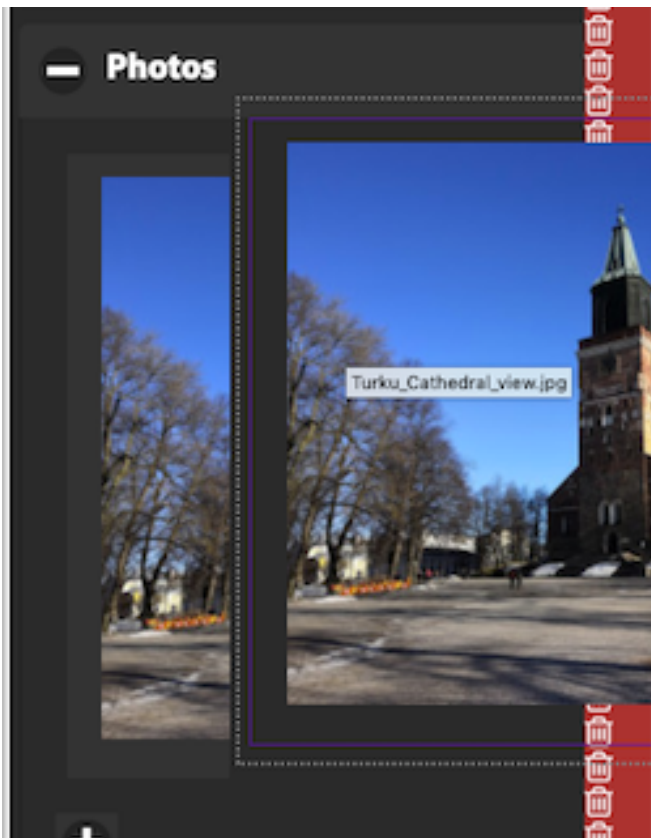

located inside the **Edit**

menu.

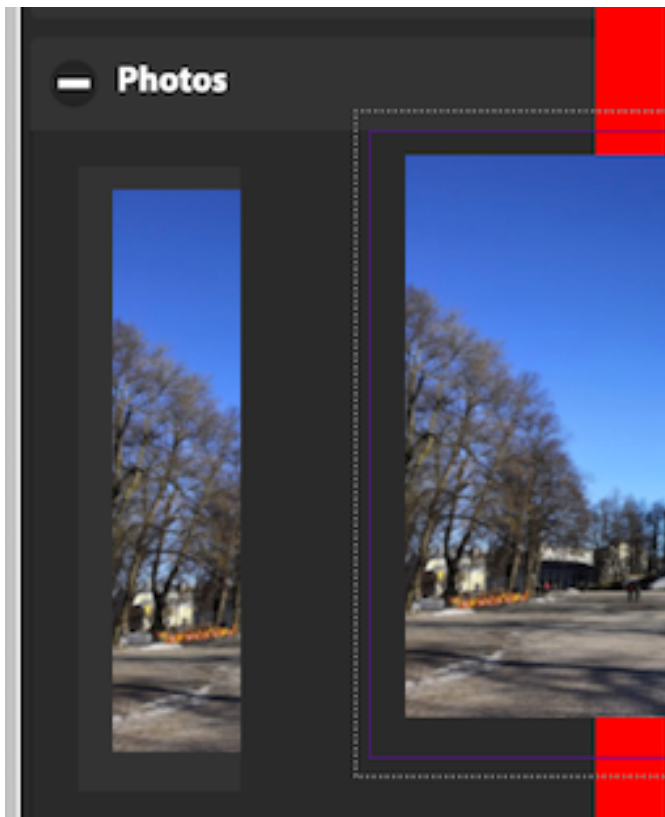

4. Erase a photo from the library.

Click on the photo you want to erasе and drag it towards the right edge of the page. Then a red line of trash bin will appear.

Keep dragging the file until the red line with bins transforms into a solid red line.

In this moment you can release the button of your mouse and the file drops into the bin. Right after that following message shows up.

Are you sure you want to delete this photo?

This action cannot be undone.

Cancel

Delete

If you confirm the **Delete**, then your file will be eliminated.

You are ready to include photos in your story!
